Amendments to the Specification

Please amend the paragraph beginning on line 49 of column 5 as follows:

Here, the cell adjacent in a column direction, i.e., the cell where the column electrode X1 is crossed with the row electrodes Y1 and Y2 should not be affected by the scan voltage ($V_a + V_w$) applied to the column electrode X2 and the row electrode Y2. As shown in Figure 7, column electrode X1 and row electrodes Y1 and Y2 are included in cell 210, which is adjacent to cell 220 in the column direction.
